Composition Question

100 points

Talking about keeping the environment clean is a very popular topic today. Everyone says how important it is, yet we still see people carelessly dropping papers and wrappers as they walk along or leaving their drinks and food garbage where they were sitting instead of putting them in the trash cans provided.

In a two paragraph essay, write about how you feel about the above situations and give two examples of how you keep the environment clean. The essay should be about 100 words in all. Write a title for your essay.
